Who We Are

At Navigate BioPharma, we help turn innovative cancer treatment ideas into reality. We are motivated by the opportunity to improve the lives of the ultimate beneficiaries of our work – those suffering from cancer.

History

Navigate BioPharma, formerly the BioPharma Department within Genoptix Medical Laboratory, was established as an independent legal entity on March 1st, 2017 and is a Novartis subsidiary. The Navigate BioPharma team consists of experienced scientific and business leaders that transitioned from the former legal entity. Navigate BioPharma continues to perform and expand services with our pharmaceutical, biotech, and diagnostic companies to meet the growing demand for specialized services in oncology clinical trials.

Location & Size

Navigate BioPharma is located in Carlsbad, California, in northern San Diego County. Our 61,000 square foot primary facility at 1890 Rutherford Road holds our nearly 180 employees and has over 18,000 square feet of laboratory space. Our second facility of operations (25,000 square foot) will be located directly across the courtyard and will have over 11,000 square feet of laboratory space.
