

Navigate Team [1]

[our_company](#) type unknown

Navigate BioPharma has a specialized, experienced and diversified talent pool of scientific professionals including:

- Dedicated Pathologists
- Laboratory Technicians including a significant number of Licensed Clinical Laboratory Scientists
- Project Managers
- Data Managers
- Quality Assurance and Quality Control

We are a GxP-compliant, CAP and CLIA-certified laboratory that supports:

- Custom Biomarker Development
- Clinical Trial Testing
- Companion Diagnostic Development

Our scientific team specializes in innovative, high-complexity, customized clinical biomarker and precision medicine solutions. We provide a real-world approach to biomarker assay development and have a breadth of experience in immuno-oncology.

We will partner with you to provide scientific insight and project consultation in order to integrate the best possible innovative solutions for each of your projects. We can enable your clinical development to facilitate diagnosis, prognosis and outcomes for each individual medical treatment.
